

# Product Design Minor

The Product Design minor offers students the opportunity to develop basic skills utilized in a variety of consumer product related industries through studio courses in Visual Communication, Digital Design, prototype and model making techniques related to industry applications. Communication of these creative concepts through thoughtful execution of projects displays student abilities in an organized body of work.

## **Eligibility**

The Product Design minor is open to students majoring in Communication Arts, Digital Media, and Fine Arts. Because of their curricular requirements Architecture/Landscape/Interiors, Fashion Design and Toy Design majors will only be approved to enroll on a case-by-case basis. Students must be on track in their major and in good academic standing, with no more than 6 credits behind and a cumulative GPA of 2.0. Product Design minors will not be assigned a desk in the Product Design department, but they may work at the common work tables in the studios. They may also participate in the Product Design Department's Senior Exhibition on a case-by-case with approval from the Department Chair.

## **Required Courses**
