

Thank You for WSP Outline Feedback

June 14, 2019

I write to thank those who recently provided feedback on the **2019-24 Working Strategic Plan Outline**, and the campus community in general, for input provided in the past as we identified planning themes and priorities for the future. Your participation in these activities allows us to learn directly from you about strengths, needs, and perspectives on the College. The Outline Feedback process yielded a great deal of valuable commentary on potential mission-refresh options, and on the current planning goals, objectives, and strategies. The feedback received will be carefully considered as the Strategic Plan undergoes further refinement this summer.

Thank you again for providing your input, in various forms, into the planning process, and for staying informed on it through the [Strategic Planning webpage](#).

Have a great summer,
Randy

Randall Lavender
Interim President
