

FASTChoice Loan Disclosures

The lenders and loan options presented in FASTChoice were selected from the lenders and loan products used by Otis students in the last three years.

All information provided on the Loan Options page is reviewed annually to ensure that the presented lenders and/or loan products well served Otis students in the past and the listed loan terms/conditions are up-to-date.

Students and parents have a right to choose any lending institution or loan and are not limited to the lender selection displayed on the Otis FASTChoice lender list.

We encourage students and parents to see if they qualify for federal education loans. The terms and conditions of federal education loans may be more favorable than the provisions of private education loans.

If you choose a lending institution that is not included in the listed options, please contact the One Stop at 310-665-6999.

Note: Otis officials are prohibited from accepting any financial or other benefits in exchange for displaying lenders and loan options in FASTChoice.

The inclusion of a loan or lender in FASTChoice does not imply endorsement. Please be advised that loan information is provided by the lender and is subject to change. Otis College is not responsible for the content lenders provide or the content of lender websites. If needed, you can confirm the provided information and details by contacting the lenders directly.
